

The **YD-WL-DTL** is aimed to provide professional therapy needs which were not available until now. Based on YON DON's expertise and 26 years of experience in manufacturing medical equipment, the **YD-WL-DTL** features safety, durability, ease of use, and especially the extraordinary lamp arm which allows therapy application from high, low, far, and close-reach from the lamp body.

Figure 1: Common application

Figure 2: Retracted for space-saving storage and for close-reach application.

Specifications:

1. Voltage: 100V ~ 110V @ 50/60 Hz.
220V ~ 240V @ 50/60 Hz.
2. Radiating power: 0 ~ 175W, 0 ~ 250W, 0 ~ 375W.
3. Mobile stand with castors fixed at base.
4. Reinforced lamp socket for durability and safety.
5. Good heat dispatching lampshade with stainless steel protective screen, which prevents burning accidents.
6. Adjustable arm height: 60 cm to 150 cm, and adjustable lamp post height.
7. Adjustable lamp arm for various extension styles (Figure 3).
8. At 80 cm from the lamp post, the therapy unit still remains stable and firm.
9. Adjustable radiating angle within 360 degrees.
10. Both timed operation and continuous operation are available for operators' convenience. Built-in auto-sleep timer allows timed operations for up to 60 minutes (or longer, upon customer's request).
11. Built-in dimmer for adjusting radiating power.
12. Can be easily retracted to a more compact size for space saving storage and/or close-reach application (Figure 2).

* The above specification is subject to changes without notice.
